

PSYCHOLOGY CLUB

The Psychology Club is a Student Organization for the benefit of the students and alumni of Metropolitan State University who are interested in the field of psychology. Most members are pursuing a major or minor degree in psychology but all those that are interested in the field of psychology are welcome to join the club for membership, attend meetings or club hosted events.

Club objectives include exposing students to a variety of topics within the specialized and general fields of psychology and to assist students in obtaining their academic and career goals through guest lecturers, study groups, monthly meeting and hosted events.

It has been shown that students who are active participants in school organizations are more likely to graduate, have higher GPA's, and a greater overall college experience.

Don't forget to apply for International Honors Society Psi Chi! It is the only honors society offered on Metropolitan Campus and you are able to graduate with honors!

GET PSYCH'D BY GETTING INVOLVED!

Benefits to Joining the Psychology Club Include:

- Interact with psychology students who share similar interests
- Get to know the psychology faculty
- Learn about graduate school opportunities and career options
- Get involved in your community
- Volunteer with the MPA events and have the opportunity to attend the annual conference for free!
- Membership looks great on your graduate school application (but your participation looks even better!)
- Priority registration to all the Psychology Club hosted events
