Freshmen Students:

A freshman is a student starting college or university for the first time or transferring with less than 16 credits. Usually this student is directly out of secondary school with no college/university experience.

- Your academic performance will be evaluated for acceptance to Metropolitan State. If your grade reports are not issued with a U.S. 4.0 grading system our Admissions Office will evaluate your ECE report to determine eligibility. Freshmen students need to have a 3.0 Grade Point Average (GPA) in an American equivalent system.

A transcript from the secondary school must be submitted directly to Metropolitan State from the issuing school. Foreign transcripts must be evaluated by an accredited agency. Educational Credential Evaluators Inc. (ECE) is one of such agency (www.ece.org). The type of evaluation report should be general for students who have only a high school diploma and a course by course report for students who have earned credits beyond high school. It often takes six to eight weeks to receive a report, so it is important to send transcripts well in advance so that the report is received by the application deadline date. Metropolitan State is not responsible for any delays in receiving the reports.

- Proof of English proficiency. (See number 2)
- Financially self-sufficient and able to provide proof of at least US$24,859.
Transfer Students:
A transfer student is one coming from another college or university with more than 16 college/university level credits. A transfer student can be transferring credits from a college/university overseas or within the U.S. All transfer credits must be from an accredited college/university.

- Transfer students need to have a 2.0 Grade Point Average (GPA) in an American equivalent system. If your grade reports are not issued with a U.S. 4.0 grading system our Admissions Office will evaluate your grade report or mark sheet to determine eligibility. You should have official transcripts sent from all U.S. colleges/universities you have attended. If you have attended a higher educational institution outside of the U.S. you should have your transcripts evaluated by ECE. The type of evaluation report should be a course by course report for students who have earned credits beyond high school. It often takes six to eight weeks to receive a report, so it is important to send transcripts well in advance so that the report is received by the application deadline date.

- Proof of English proficiency. (See number 2)

- Financially self-sufficient and able to provide proof of at least US$24,859.
