MGMT 699	MGMT: Strategy and Policy	4	Online	Hybrid		Online	Hybrid	

## Notes

**Course Formats** **Classroom courses:** Learners attend face-to-face class meetings; **Hybrid courses:** Course is a blend of face-to-face classroom meetings and online learning; **Online courses:** All instruction is delivered online.

**Course Order** Learners are encouraged to start the program with either or both of the MBA's 2-credit, Phase I courses: MGMT 600 and/or ECON 696. The program occasionally welcomes new students after the application deadline, which can mean that sections of MGMT 600 and/or ECON 696 are full for these late-admitted learners. In this case the learner may register for any Phase I or Phase II course that (1) has no prerequisites and (2) still has openings.

After the learner's first semester, all Phase I and Phase II courses may be taken in any order—unless they have prerequisites. Phase III (MGMT 699) must be taken in the learner's final semester, but can be taken concurrently with another course.

**Concentrations** Students who opt to pursue an MBA concentration will have their 8 elective credits dictated by the requirements of the concentration they choose. They will also take one more 4-credit course (for a total of 44 credits) than students opting to earn an MBA without concentration.

**Electives** Students not opting to pursue an MBA concentration may select electives from among any of the graduate course offered in the College of Management. Graduate courses offered by other Metropolitan State University colleges may, in limited situations, be applied toward MBA elective credit at the discretion of the MBA Program Director.
