Program Credits: 62 nursing; 58 pre-requisites, co-requisites and general education = 120 Total

- **\*\*MnTC goal area courses with a \*\* may be science courses that are pre-requisites for Anatomy/Physiology I or Microbiology**
- *General education courses can be taken earlier, but not later, than the identified semester.*
- *All nursing courses in each semester must be successfully completed to progress to nursing courses in subsequent semesters.*
- *Meeting with an advisor or attending an information session is strongly recommended to ensure that the required pre-requisites are met and that the course meets program credit transfer at Metropolitan State University. All [GELS](#) requirements must be met.*
- *RIGR requirement may be met anytime during the program, but before graduation. Visit "Course Info" on the Metro State home page.*
- *Students with 0-16 credits are required to take Metro 101, and may use it as the 1st semester general education requirement.*
